AT THE CITY HALL

DAVENPORT EXCORIATES BOARD OF HEALTH.

DECLARES DOCTORS HAVE BEEN "CRIMINALLY NEGLIGENT."

Non-enforcement of Garbage Contract Causes Storm—Several City Fathers Whack the Board and Municipal League Offer Sage Advice.

Councilman Davenport roundly scored the Board of Health for failure to enforce the provisions of the garbage contract at the Council session yesterday morning. The big legislator from the Sixth Ward said some very pointed things and he did not mince words. He declared the Board of Health guilty of criminal neglect in not holding the contractors to their obligation.

Davenport has been making a careful investigation in the Sixth Ward and his canvass convinced him that something was radically wrong with the administration of the garbage contract. This fault, after careful scrutiny of all the official records, Davenport lays at the door of the Board of Health.

It will be remembered that the Board of Health has never attempted to penalize the contractors according to the contract for failure to collect. Instead the board passed a resolution to the effect that the garbage work was inefficient and unsatisfactory and requested the Council to take steps to acquire the old crematory of Franklin & Alexander, and to place the garbage collection entirely in the hands of the Board of Health.

When the Finance Committee of the Council refused to accede to the request of the board for financial reasons the medicals became sulky, apparently, and took no steps whatever to secure satisfactory garbage collection under the contract.

Such in brief is the history of the garbage contract and it formed the basis of an excellent speech yesterday more severe than has been given any public body in the last three years from an official source. In this case Davenport committed his speech to writing and read it to the Council. He delivered his speech with great emphasis and appeared to be very earnest in his opinions and beliefs. Davenport spoke in part as follows:

DAVENPORT'S HOT SHOT.

"You are all aware of the fact of a contract existing between the city of Los Angeles and Franklin & Alexander for the removal and disposal of garbage for a period of three years from the 23rd day of August, 1932.

"The specifications in this contract were carefully prepared by the City Attorney, assisted by individual members of the City Council, and they are the basis of the garbage contracts, and a study of the question in hand, and a desire to formulate a plan looking to the health and welfare of our fair city, brought forth the specifications of the present garbage contract. These specifications are clear and concise, every one to the point, and no undue advantage is taken of the party of the first part, or the party of the second part.

"Of the earlier parts of the contract, I have no comments to make; in fact, I knew nothing of the provisions of the contract, and did not know that it was to be enforced. I was then living at 954 Maple avenue, and the garbage collector called regularly twice a week.

"I moved to where I am now living, 1724 Wall street, and there I quickly found out the garbage collector only called once a week. I inquired about it, and he told me that he was the custom, and they appeared to be satisfied with the arrangement, and at that time not knowing of the provisions of the contract, accepted the situation, and had no word of protest. It continued up to the present time; one call a week, no more. I am prepared to prove this fact to the satisfaction of any court or jury in the land.

FAILURES TO COLLECT.

"The city is divided into two districts for the collection of garbage. District No. 1 comprises the business section, and District No. 2, the residential section.

According to the provisions of the contract, the contractors have obligated themselves to call at all houses in District No. 2, at least once a week, from October 1 to April 1, and three times a week from April 1 to October 1, during the life of the contract. Speaking of the record of the garbage collector and east of Main street, and the city limits and the Los Angeles River respectively, I assert and can prove that the garbage collector has never called this year; that in no case has the contractor fulfilled his contract in the territory just named.

BOARD TO BLAME.

"Who is to blame for this condition of affairs? There is only one answer to the query, viz.: The Honorable Board of Health of Los Angeles.

The Council of Health is the sanitary measure of the utmost importance. Frequent removals are necessary to prevent the atmosphere from becoming permeated and impregnated with poisonous gases, arising from decaying animal and vegetable matter, during the summer months. The contract positively states that garbage must be removed three times per week. The city demands this; the contractors have agreed to do it, and have backed

up their agreement with a bond of \$15,000 to the city, yet, gentlemen, the Board of Health has a map in the health office—setting forth the territory bounded by Ninth street, Alameda streets and Slauson avenue, to be visited by twice a week by the garbage collector, notwithstanding the fact the contract calls for three visits a week, six months of each year, and the city is paying for three visits a week.

"CRIMINALLY NEGLIGENT."

"What is your opinion of the present Board of Health? Are they worthy to fill the honorable positions they now occupy? The Board of Health says the present contract is 'rotten.' The term 'rotten' is quite inelegant, though expressive, and I crave your pardon for using the same term. In saying the enforcement of the garbage contract by the present Board of Health is worse than 'rotten,' they are saying the enforcement of the law, to enforce laws tending to good health, to protect the people against contagion and pestilence, is worse than 'rotten.' They are criminally negligent in the performance of their duties.

"Health Officer Powers says the present garbage contract is an admirable one, and if properly enforced would prove a success. Dr. Powers and his associates, who are members of the Board of Health, under its control and domination, and subject to its orders. Can a river rise above its source? An army in the field can act only as the general in command. There is no question as to the power and authority of the Board of Health to enforce the garbage contract.

WHERE AUTHORITY RESTS.

"The contract specifically says: 'It is further mutually agreed that the city of Los Angeles shall be authorized and empowered to ascertain and determine whether and when any such failure or neglect to remove garbage from the city shall have occurred, and their decision shall be final on any such question, and shall be at once communicated by them to the City Auditor and the City Council of said city.'

"How many reports have they made during the past six months for dereliction of duty on the part of the contractors?"

"At this point Councilman Davenport quoted from a communication sent the Council by the Board of Health and already printed in these columns. The Board was aware of the violations of the contract all the time, but did not report to the Council. The Finance Committee conferred with the board at the time but no conclusions were reached.

DAVENPORT'S CRITICISMS.

"Last Tuesday I was present at a meeting of the Board of Health, and learned from the contractors that they were waiting for the Council to act in the matter; thus showing an utter indifference to the safety of the city, health, and a total disregard for their obligations, which they have sworn to perform. They delivered their speech with great emphasis and appeared to be very earnest in his opinions and beliefs. Davenport spoke in part as follows:

GUILTY ON THREE COUNTS.

"First—Failure to compel the contractors to collect garbage from all the houses and at all the times as set forth in the contract.

"Second—Failure to compel the contractors to furnish householders cards, with printed instructions thereon, as to information concerning garbage collection, and to deliver his speech with great emphasis and appeared to be very earnest in his opinions and beliefs. Davenport spoke in part as follows:

"This talk of exposing to public gaze the non-fulfillment of enforcing the garbage contract on the part of the Board of Health has not been a pleasant one; but in the interests of humanity I had no other course to follow. During the past month or so, I have made a personal investigation of conditions as they exist in the Sixth Ward, and I am satisfied that the garbage collector has failed to collect garbage from the houses of the city, and that the garbage is being piled up in the streets, and that the atmosphere is being polluted, and that the health of the city is being endangered. I am satisfied that the garbage collector has failed to collect garbage from the houses of the city, and that the garbage is being piled up in the streets, and that the atmosphere is being polluted, and that the health of the city is being endangered.

"I am fully prepared to establish the truth of each and every one of these charges.

experience with the Merchants' and Manufacturers' Association when we found that communications from that body were being sent to the city. We don't want any more of this one-man power in such bodies."

MAYOR FAVORED PURCHASE.

"The Board of Health is responsible," declared Skilling. "The finance committee is not in such shape as to justify the city in taking hold of the garbage collection, as we all know it would cost more. We should insist that the Board of Health enforce that contract."

"The upshot of the whole thing is that Mayor Snyder and one or two members of the Board of Health wanted the city to purchase that crematory for some reason. The Finance Committee didn't see fit to recommend it, and so the board has not tried to do anything."

"The board is responsible, why should they bother the Council all the time with this matter?" asked McAlister. "If the board won't attend to their duties, why should we attend to their hands and do it ourselves."

"The contract provides for certain work on the part of the city, and the city is not to do it," said Davenport. "We have a City Attorney and all the machinery for enforcing the contract, and we should make the Board of Health responsible for the work. That contract will never be settled until the Council takes the matter up."

MORE MEXICAN BLOOD SHED OVER A GIRL.

SHOOTING AT COLTON PART OF OLD MEXICAN FEUD.

From Ambush Amalacia Chavez Fires
Three Bullets Into Miguel Dominguez
and Escapes—"Col." Black and Re-
tainers Arrested for Killing Doves.

SAN BERNARDINO, July 27.—Miguel Dominguez was shot from ambush at Colton early yesterday morning by Amalacia Chavez, who concealed himself in the brush to await the coming of his victim. Dominguez was not forewarned of the danger, and only discovered the assassin after he had been shot three times. Two bullets passed through the man's left arm, and the third completely through his left side, just missing the heart.

The wounded man was with several other Mexicans at the time, and while they assisted him to the office of a surgeon, Chavez made his escape, appearing in the dense brush and along the Santa Ana River. All day the Sheriff and a large posse have been out searching for the man, and they are of the belief that he will be taken.

It is stated that the shooting is only one of many bloody affairs which have occurred recently at Colton and Agua Muelle as the result of a feud which started at El Paso twenty years ago over a young girl of the Chavez family. Only a few weeks ago one of the Chavez family was shot through the heart, and last week the man who did the shooting was acquitted, it being proved that the weapon was accidentally discharged in a struggle, it having been drawn by the man who was shot.

"COL." BLACK ARRESTED.—Special Game Warden Whaley yesterday arrested six Los Angeles men at Elwood for violating the game laws of this county, they having shot a number of doves. They were named as William Jones, E. Kent, Kane, J. Meyrick, G. Black, D. Kats and E. W. Hopperstad. It has since been learned that "Jones" is "Col." Black of poolroom fame. His attorney telephoned from Los Angeles, stating that his client would like to have the hearing set for Tuesday afternoon, which was accordingly done. All the prisoners were released on promising to appear in court here when summoned.

BERDOO BRIEFS.—The funeral of Edward Jewell, who committed suicide in Lytle Creek Saturday night by exploding a dynamite cap in his mouth, took place here yesterday morning, under the auspices of his company. It is learned that he formerly worked at Los Angeles in the city parks, coming here two weeks ago with John Dougherty, also a Los Angeles man, to work for the Edison Power Company. He suffered a severe injury to his head by falling from a carriage about a week ago, and it is thought that this accident dethroned his reason.

Persons appearing in a local paper which make charges of a serious nature against the "management of the Southern California State Hospital at Patton," without naming any individual or making the charges specific, have aroused the indignation of the surgeons who are alleged to be doing the work at the hospital. The indignation was gathered by a man named Rollins, who was recently deposed from the position of superintendent of the institution. Some years ago, Rollins, as an expert before a grand jury, made similar charges in his report against the superintendent of the County Hospital here, but the grand jury refused to accept his report.

A Chualar, the cook who slashed his throat with a knife Saturday night, is found to have taken strychnine before he cut his throat. He is a maniac and has to be muzzled and closely guarded to be prevented from tearing the bandages from his neck. He will probably die.

"Come all ye that are heavy laden"—put a "Liner" in the Times and the Times will be gone. Telephone your wants to Red 414 and our San Bernardino Agency will take your ad. and send it to the main office.

REDLANDS.—LORENZ CLUB AT WORK.—REDLANDS, July 27.—The Lorenz Club, organized recently by a few philanthropic women here to provide medical or surgical attention to the needy, especially children, has secured its first case. It was a little girl who was badly in need of hospital treatment, for lack of which she could never be cured, or even be taken to the hospital by the club to the Good Samaritan Hospital in Los Angeles, where there is every hope of a permanent cure being effected. The officers for the Lorenz Club are: Mrs. R. H. Moore, president; Mrs. M. Zimmerman, vice-president; Miss Anna O. Henry, treasurer; Mrs. C. W. Clark, secretary.

Andrew J. Dwyer of Portland, Ore., died yesterday at Fredalia, of tuberculosis. The remains were shipped to Los Angeles this afternoon for interment, accompanied by the widow.

George H. Dunn, 8 J. White, George O. Sullivan, W. B. Moore, R. H. Moore and J. F. Hird went to Rocky Point yesterday to camp and fish.

Red, Paul Pennington has charge of the Spanish mission work in Redlands, Colton, Riverside and San Bernardino, addressed the Christian Endeavor Society at the Presbyterian Church last night, on his missionary work in South America.

Dr. Cooper has returned from a two weeks' trip through Northern California, Oregon and Washington. There was a spirited game of baseball yesterday at Association Park between the Santa Fe team and Redlands, the latter winning by a score of 7 to 3.

P. E. Berry has gone to Long Beach for a few weeks to recuperate from his illness.

A party composed of the Misses Webb, Clem and Ruby, Eason, Messers, Jean and Ivan Putnam and Simms, spent yesterday in Santa Ana. The Rebekahs were in talyhois this evening to Harlem Springs, where they spent the time in dancing and bathing. An elaborate luncheon was enjoyed.

Miss Mae Aldrich will leave tomorrow for an extended outing at Whittier and Newport.

 HAVE been treated by Dr. Schiffman for years. I have tried all his different methods and can say unhesitatingly

dentist or physician has ever operated with such success or skill. In extracting my teeth he did it without any pain to me. It is a great pleasure to me to recommend him and his method of treatment.

MILO M. POTTER,
Prop. Van Nuys Hotel and Hotel Potter, Santa Barbara

Ten years ago a reputable D. D. S. of Va. told me that a certain molar tooth could not be satisfactorily saved and that it would probably not be of service for one year. It has not only served me for ten years, as Dr. Schiffman saved and crowned it, and comparatively speaking without pain. I sing his praise.

L. M. ANDREWS, Pastor M. E. Church, Santa Barbara
Cor. 6th and Mateo Streets.

On account of some unfortunate experiences I had in the extraction of my teeth I became a great coward in this respect. Today Dr. Schiffman extracted one of my very refractory teeth without causing me one particle of pain.

D. K. TRASK, Judge Superior Court

Dr. Schifman extracted a tooth for me absolutely without pain. His advertising phrase, "Didn't Hurt a Bit," is literally true.

E. D. HOLLAND, Pacific Electrical Works
Under Nadson, First St.

EVERAL years ago Dr. Schifman did some crown and bridge work for me which has proved entirely satisfactory. The work was done painlessly and with great skill. It gives me great pleasure to recommend him.

IRVING R. SMITH, L. A. Times.

Dr. Schifman has put in almost an entire upper bridge for me. The bridge is perfect in every respect, and I can use it as well as my former L. A. Times work was pleasant and painlessly done.

Dr. Schifman pulled two of my wisdom teeth, and it didn't hurt a bit, on the contrary, the extraction was pleasant.

GUY L. KALINOWSKI, Vice-Pres. Mercantile Fr. Co.

It is with pleasure that I state that I have several teeth filled by Dr. Schifman, and that he visited and extracted the nerve and filled the root of one of my teeth.

I have had porcelain crown work and some filling done, also had two teeth and some extractions by Dr. Schiffman, and have great pleasure in recommending him to anyone wishing dental work done without pain.

Dr. Schiffman has put in a very satisfactory place of business on the corner of Spring and Washington streets, and is anxious to be known to all.

About a year ago I had a cold gold bridge put on by Dr. Schiffman. The work was absolutely perfect, and has proved entirely satisfactory, and I cannot say enough for the doctor.

ED. KAMMERER, JR.

Dr. Schiffman extracted my teeth and replaced them with a bridge work. He also treated me and filled two teeth, which I thought were too far apart to be filled. He has been very kind and perfectly satisfactory.

I have had denton tooth-instrument put in without pain by Dr. Schiffman.

Wilkinson retained Capt. Murphy in his old position, but instead of giving him the authority to which he was entitled, he speedily stripped him of practically all influence in administration of the prison. Murphy's competence was a well-known fact for Wilkinson to get along without. But with other experienced men he began a course of systematic insult and interference that soon forced many to resign and make way for friends of the new warden and his backers on the prison board.

THIRTEEN CONVICTS BREAK FROM FOLSOM.

Attack the Prison Officials With Razors and Knives.

Fatally Wound Two of the Guards, Taking Others With Them as Prisoners—Loot the Armory of Arms and Ammunition—Posses Surround Them and Fierce Battle Ensues.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, July 27.—[Exclusive Dispatch.] Thirteen convicts, all of them long-timers, made their escape from Folsom prison this morning. With knives and razors they attacked the officers of the prison while the latter were at breakfast. In the subsequent fight two of the guards, William A. Colter and Joseph Cochran, were fatally wounded, Colter dying soon afterward.

The convicts using Warden Wilkinson and nine of his subordinates as a shield passed by the gating guns, looted the armory and started across the country taking their prisoners with them but subsequently releasing Wilkinson and several others.

The convicts siezed a four-horse wagon and looted a store at Pilot Hill. Soon after leaving that point this evening they were overtaken by posses from Sacramento, Folsom and Placerville, and a fierce fight ensued during which Convict Howard was killed and Convict Slavis badly wounded.

At last reports the convicts were still surrounded. Reinforcements are hurrying to the spot. The following is the list of convicts who escaped:

THIRTEEN ESCAPE.

DETAILS OF THE BREAK.

(BY THE ASSOCIATED PRESS.—A.M.)

FOLSOM, July 27.—GUARD WILLIAM L. COTTER, dead.

GENERAL OVERSEER JOSEPH COCHRAN, fatally wounded.

GUARD CHARLES JOLLY, wounded.

GUARD IN NECK AND ARM, not serious.

TURNKEY W. A. CHALMERS, wounded on hand and arm, not serious.

WARDEN THOMAS WILKINSON, slightly wounded in abdomen.

Thirteen desperate convicts assault and overcome the guard, capture the prison armory, make their escape and carry with them eleven officials and guards of the Folsom State prison including Warden Wilkinson and Capt. R. J. Murphy. Such, in brief, was the news that startled the people of this community, and sent a thrill through the length and breadth of the State this morning.

SECRET WELL KEPT.

This morning matters at the prison went forward in the ordinary groove. There was no indication of trouble.

The conspiracy of the desperate convicts who had decided on a dash for liberty had been well kept.

The prisoners marched into the dining room and had their breakfast. Warden Wilkinson, as was his wont, scrutinizing their action. After the meal the men marched out of the main gate of the prison into the yard. The upper yard line was out, and most of the stone line was through, when two prisoners turned suddenly on Outer Gatekeeper W. A. Chalmers, and a dozen others rushed for the Captain's office, only a few feet to the left of the main entrance to the prison proper.

Warden Thomas Wilkinson, Capt. R. J. Murphy, Harry A. Wilkinson, the warden's nephew, and five or six guards were assembled in the Captain's office in readiness to hold the usual morning session of court. The

CONVICTS ATTACK.

The assembled officials and guards expected anything rather than trouble. They heard something like a scuffle at the main entrance and Capt. Murphy rose from his chair, intending to investigate, when the convicts dashed into the office door. Each of the desperate men were armed with a "shiv" knife or a razor, and in a twinkling they were in the midst of the assembly. The convicts and their prisoners were armed, and ordered them to line up and march out.

Meantime the "free men," outside started for the office. General Overseer Joseph Cochran was the first to enter. He was armed with a stout cane and being of an impulsive, impetuous nature immediately began using the cane on the convicts to compel submission.

But the convicts who had planned the movement were desperate. They had staked their lives on the move, and one man clothed with authority and armed with a cane was not allowed to stand in their way.

COCHRAN STABBED.

In a twinkling, men sprang upon the intrepid overseer, and drags descended and razors flashed into his body. The other convicts seemed crazed by the onslaught. They used their knives, evidently made in the prison blacksmith shop from old files and their razors, evidently furnished from the prison barber shop, indeliberately upon the free men in the room.

Guard William L. Cotter, who has held the position for seven years, staggered, put his hand to his side and said: "My God, I'm done for," and then fell to the floor.

Guard Charles Jolly was bleeding profusely from two wounds. Then the convicts seemed to gather

their senses sufficiently to enable them to carry out the conspiracy as planned. With guards and officials as prisoners, the convicts could not now move them down without also killing their prisoners.

Warden Wilkinson had received a slash across the abdomen, but for over six hours did not know the knife had more than clipped through his clothing. While at dinner, however, he examined the slashes in his vest, trousers, shirts and drawers, and found that the knife point had seamed the skin and drawn blood for several inches. William L. Cotter had been disemboweled, and the intestines cut through with the knife, and he was also bleeding from various other wounds. General Overseer Cochran had two deep, dangerous stabs in the back. The captain's office looked like a slaughter-house. It is about fifteen feet square and from the front porch to the rear door it was spattered with blood.

MELEE QUICKLY OVER.

The melee was over in a few seconds. Capt. Murphy, when the dash was made, realized instantly what was intended, and dashed into the annex to the rear of the office, intending to run out, gather the guards, throw away the keys of the prison armory or armory, and of the gate leading from the annex. The inner door leading from the annex is usually open, but Capt. Murphy found it locked, and was beset by two convicts, who threatened to murder him if he did not get back into the office and line up. He made a virtue of necessity and went back.

In the meantime 280 convicts had been standing in line in the prison yard. The conspiracy had been guarded so carefully that it is doubtful if a half dozen of them had an inkling of what the desperadoes intended doing. The discipline to which they had been subjected held them in line. Not a half dozen men stirred from the ranks, but after the first rush every man saw, and probably understood that a break for liberty was being made by their fellow prisoners.

GATEKEEPER CHALMERS WAS AT HIS POST.

Gatekeeper Chalmers was at his post of duty while the convicts were filing out. When the two who had been detailed to attend to his case rushed him he threw one of them to the floor, and in the tussle that followed he was severely cut on his left hand and arm, but later, after his wounds had been dressed, went about his duty.

ATTACK ON GATEKEEPER.

The prison entrance proper has two doors, or gates. The outer gate was guarded by Chalmers, the inner by a prisoner named Joseph Casey, who is serving a life sentence. Casey proved that the spark of manhood was not extinct in him. As soon as Chalmers was attacked he flung to the inner door, shot the bolts, and the convicts remaining inside the prison were as secure as if locked in their cells.

Gatekeeper Chalmers secured the outer gate and in the passage between the two gates nineteen convicts were securely locked.

When the rush was made C. H. Ward was crossing the prison yard to his quarters for breakfast. He heard the commotion and about faced, and at the same moment Lieutenant of the Guard Kipp shouted at him to run on. Ward started back on to come, but by the time he reached the office was seized by a convict, who flourished an ugly-looking knife, and he, too, became a prisoner.

RAID THE ARMORY.

The convicts, having thus quelled all demonstrations made by the free men, started with their prisoners across the yard, going within a few yards of the line of 280 convicts who had passed out of the prison, in the direction of the prison armory, which is fifty yards from the main entrance to the ground, and to the northeast of the captain's office a hundred steps, and across the way from the officers' mess room.

Four guards were at the armory, receiving their rifles preparatory to taking out the convicts. The convicts marched their prisoners up to the armory and, holding their knives over them, demanded that the doors be opened. It was a case of open the doors or slaughter the warden, captain and other officials, and the convicts declared that if a shot was fired they would murder every prisoner.

Warden Wilkinson realized the uselessness of resistance, and told the guards to open the armory doors. This was done and the convicts took possession, securing ten rifles, twenty-five revolvers and all the ammunition they wanted, and then marched to the main entrance and demanded that the gate be opened. They again threatened their prisoners and the gate was opened.

BRAVE THE GATLING GUNS.

The convicts marched out and up the hill to the very teeth of the gating guns trained upon them. Their plan had worked even beyond the wildest scope of their imagination. Their prisoners were their safeguards, and they had not lost a single man.

Upon leaving the armory, Guard Jolly, who had been wounded, and who was faint from loss of blood, was left behind. The convicts with their prisoners moved boldly over the hills. Warden Wilkinson, who is stout, grew short of wind, and when a quarter of a mile from the prison, asked his captors to release him and they did so. They had taken his watch at first, but returned it to him at the last moment.

The march was resumed, and when the convicts and their prisoners were about three-quarters of a mile from the prison, the big siren sent out its notes of warning announcing the escape, and at the same time word was telephoned to Folsom and thence throughout the State.

SIREN SOUNDS ALARM.

When the attack on the captain's office was made Convict O. C. Clark, who is doing twenty years for forgery, was at his desk to the left and rear, making out his report. When the rush was made he dropped down on the floor, crawled into the annex and after the trouble was over he went to the warden's office to the west of the building and turned in the alarm. It was then that the big siren announced the escape.

When three-quarters of a mile from the prison, Capt. Murphy, who had been jollying his captors, suddenly he was first despoiled of his trousers, and he declined to don those offered to him by the convict who felt bad for his. The captain returned in his pajamas with the prison stripes and his coat draped his legs.

Harry Wilkinson, the warden's nephew, was released at the same time the convicts seemed to gather

BIG DROPS OF STEEL.

Enormous Losses on Stock Exchange.

Many Holders of the Shares Have Made Money by Retaining Them Until Shrinkage.

Schwab is Supposed to Have Lost Nearly Two Millions and Phipps Over Six.

Two More Failures Announced Market Not Affected Thereby. Interview With Keene.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 27.—[Exclusive Dispatch.] Enormous drops in the prices of steel stock, preferred touching 6½, and common going to 21-24, have resulted in enormous losses. The extent of these losses is not represented adequately to the unprofessional mind by the quotation figures, and are better expressed in round dollars. April 30, 1901, preferred steel stock sold at the highest price in the history of the trust, 121 7-8, and common at \$5. On that day, the holdings of the Steel Trust at those figures were worth, in round numbers, \$500,000,000. Last Friday, July 24, the stocks of the trust dropped to their lowest point. Preferred sold for 6½, and common at 21-24.

If the same amounts of stock were then outstanding as on April 30, 1901, their approximate value was \$450,000,000, a loss of \$41,000,000, or about 4½ per cent. Those gigantic losses were, of course, divided among thousands of persons, and undoubtedly many made money by selling for a drop. But a great majority of the stockholders of the Steel Trust lost in the onslaught which drove down prices. Many private fortunes were attacked, and some private losses footed up sums which, a few years ago, would have been considered vast.

Schwab is credited with holding 50,000 shares of preferred stock and 6000 shares of common stock. If he held those securities, his losses represented nearly \$2,000,000. The value of his preferred holdings dropped over a million and a half alone. Three and three-quarter millions is a moderate estimate of the losses of H. C. Frick in the steel slump, if he held on to the 100,000 shares of preferred stock, which he owned a year ago. More than \$4,000,000 was the loss on steel alone to Henry Phipps, if he did not sell his vast holdings before the slump came. He held a year ago, 120,000 shares of preferred and 75,000 of common.

HOOLEY & CO. FAIL.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, July 27.—Another failure was recorded this morning when official announcement was made on the Stock Exchange of the suspension of Edwin S. Hooley & Co. The firm includes, besides Hooley, Frank Brumley and Norbeck Heinsheimer. Hooley & Co. were especially prominent brokers in the days of the Roosevelt Flower bill campaign. Hooley & Co. were specialists in Evansville & Terre Haute and Des Moines and Fort Dodge securities. In Stock Exchange circles Hooley & Co. were especially prominent. The failure of the firm was a surprise. In some quarters, in fact, the announcement had been discounted. The market opened irregular and fractionally lower. It rallied just before the Hooley failure was announced, after which it declined slightly and then rallied again.

The members of the firm of Hooley & Co. had no statement to make up to 9 o'clock. A general belief is that the failure of the firm was due largely to the sudden drop in prices of Des Moines and Fort Dodge and Evansville and Terre Haute stocks Saturday. It is authoritatively stated that W. L. Stow & Co. in Evansville had no interest in Hooley & Co. and Terre Haute securities, of which company E. H. Harriman is the president, and his firm is understood to have been largely interested. Last year Hooley and Stow bought considerably of the Des Moines and Fort Dodge property, and at the annual meeting a year ago elected three directors representing their interests, and at the annual meeting this year elected three more. The lease under which the Rock Island operates the property is still in force. L. B. Rolston, of the firm of Turner, Rolston & Moran, was made assignee of the firm.

WILLIAM BASSETT & CO.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, July 27.—Shortly after noon announcement was made of the failure of William Bassett & Co., members of the Boston and New York stock exchanges. The firm had practically no contracts outstanding on the New York exchange for more than a year, and the failure was regarded as comparatively unimportant.

BOSTON END OF IT.

(BY THE ASSOCIATED PRESS.—A.M.)

BOSTON, July 27.—William Bassett of No. 10 State street, a commission broker, member of the New York and Boston stock exchanges, failed today. Bassett has for a long time handled municipal bonds. No statement is available at present, but the failure is not regarded in financial circles as important. George H. Nutter has been named as assignee.

SAN BERNARDINO.

COLTON DOWN ON MEXICANS.

SAN BERNARDINO, July 23.—There was a meeting of leading professional and business men at Colton last night to discuss ways and means of dealing with the Mexican population, which is increasing in number there and threatening the health and peace of the community. Strong resolutions were drawn up calling a mass meeting to be held in the City Hall Saturday night. During the discussion many advocated very aggressive measures, even to driving the Mexicans off like sheep, and severely punishing any who were found within the city limits. The entire community is thoroughly aroused owing to the recent series of lawlessness by the Mexicans, and the discovery of numerous cases of diphtheria among them, which they concealed until a death brought about an investigation.

SAD CASE.

William Jennings appealed to the Supervisors today for transportation for himself and four small children to their home in New Orleans. He stated that he and his wife and family had started West for her health, and just as the train was approaching San Bernardino the wife died. Nine of the scholarship contestants bettered their positions yesterday and eleven lost ground. The biggest gain of the day was made by Bob Sang Nan, the Korean, who moved up from thirty-third to twenty-seventh place. Nan is largely indebted for this sudden rise in his fortunes to Miss Maud M. Johnson of No. 1235 Ingraham street, chairman of the Lookout Committee of the City Union of the Christian Endeavor Association. This committee is looking out for Bob Sang Nan. Miss Johnson began some time ago to interest the Christian workers of the city in the Korean youth in order to help him win a scholarship, so that he can prepare himself to return to his native country to do missionary work.

MISS CLARE TEMPLETON.

The picture presented today is that of Miss Clare Templeton of Lamanda. Miss Templeton's entry and record in the contest for the short time she has been in it is unparalleled. She has been a member of the contest for two years, and has won a total of 1000 points. The interest that is being taken in this oriental youth is remarkable. He is receiving coupons from more different sources than any other contestant in the race.

WATSON SHOT AT.

SANTA MARIA, July 23.—A shooting in which night watchman Sam Logan nearly lost his life. Two characters of doubtful reputation and known as opium dealers, were paid a large sum of money to shoot at the watchman. The watchman appeared to arrest them. Rather than surrender, they opened fire with their revolvers, and after shooting twice fled. The watchman was hit in the arm and leg, but he was able to return to work. A short time afterward the two men were arrested and taken to the county jail. They were held in the night and locked up. On examining the culprits it was found that both were armed and each had a pair of chambers of his revolver.

ONE OF THE MEN AT THE TIME OF HIS PLACED HIMSELF IN CHARGE OF A DOCTOR, CLAIMING THAT HE HAD SMALLPOX. EXAMINATION SHOWED THAT HE WAS TELLING A TRIUMPHANT LIE. HE WAS PLACED IN QUARANTINE. THE OFFENDER NOT SUFFERING WITH SMALLPOX WAS RELEASED TODAY, PLACED GUITY TO A FINE OF \$100 AND SENT TO THE COUNTY JAIL.

GRAIN FIRE.

A grain fire in which over four hundred sacks of grain were destroyed took place on Ole Nelson's ranch Saturday afternoon. The fire started from a spark from a machine and spread so rapidly that it was with the greatest difficulty that the owner of the threshing machine could save his machine. The fire occurred near a road, which served as a break against spreading the flames. The loss is insured.

The Intelligent Blue Jay.

A TRICKY FELLOW.

BY EDWARD B. CLARK.
Associate Member American Ornithologists' Union.

WHEN it comes to a question of intelligence, the Corvidae family, to which belong the crow and the blue jay, must be accorded the first rank. These birds have practically an exhaustless vocabulary and their characters are as many-sided as that of Reynard, the fox, which is saying much.

The bird lover who would get any-

things from the household and carries on war with the family cat. It is hard to determine just how much damage the blue jay does by pilfering the eggs and murdering the young of the song birds. The difficulty in determining the damage arises from the fact that the jay is "bad in streaks." You may watch him for a month and never detect him in a single depredation, but turn your back and there is no certainty but that the next moment he may be dining from the new-laid eggs of the robin or tossing the young of the chipping sparrow from their half-lined nests to their deaths on the ground below.

A BLUE JAY FEAST.

From the standpoint of amusement there is more fun in watching a blue jay than in the observance of a score of his sweeter-voiced comrades of the field. A German living in a suburb of Chicago made some soap for home consumption. He patted it nicely into cakes and placed them on a board in the yard to harden. The suburb—it is called Highland Park—is about as full of blue jays as it can be and still leave room for other bird families. When the German put his soap out all the blue jays of the neighborhood descended upon it. They ate soap for an hour, and the wonder still is that they did not die, but the diet did not seem to interfere with their digestion in the least.

When the owner of the soap found the blue jays at their work he re-patted what was left of the cakes, added some more material and again put the soap out to harden. This time he placed the board which held the cakes upon two barrels and mounted guard at some little distance to keep the jays away. They returned to their feast as before, but the heavy stone striking one end of the board turned it over and pitched all the soap cakes into a box of soft cement.

The foreigner doesn't take kindly to the ways of the American blue jay. As has been said, blue jays are thick in the suburbs of Highland Park. An Englishman living in the place had some gooseberry bushes which bore berries of extraordinary size and sweetness. The owner of the fruit declared that the blue jay ate his treasure, and securing his shotgun he destroyed several of the birds. The law of Illinois protects the blue jay, but there is a section of the statute which gives the right to kill birds which are preying on crops. Friends of the blue jays said that the birds wouldn't eat gooseberries, and there was a prosecution started against the Englishman for killing them. The case was decided finally in his favor, and while scientists and bird lovers may hold otherwise the blue jay now appears in a "prejudicial case" as being a gooseberry gourmand.

AN ALTERCATION.

The blue jay is perhaps the noisiest creature known to ornithology, though if danger is threatened he can maintain a graveyard silence. I was watching a pair of blue jays who were building a nest in a stunted pine tree. The two birds left the home site and disappeared behind a close board fence. In a moment I heard a racket. Every note known to the jay's jargon came rapidly from behind the fence. The noise con-

tinued for several minutes, and then, going to a point to the left of its source, I peeped over the fence. The two birds were on an ash pile in the alley, and between them lay an extremely dirty paper collar. There was little question in my mind but that they were disputing over the advisability of using the collar for nesting material. They scolded back and forth for some time, but Mrs. Jay finally ended the matter by seizing the collar and taking it to the nest, where, after much difficulty, one end of it was

back as the real cause.

There came under my personal observation a crow which had a large white patch in the center of its throat, and I was determined to determine absolutely what the reason for the crow's persecution was, but of course everything points to the circumstance of its white back as the real cause.

The bobolink (*dolichonyx oryzivorus*) has been painted part white by nature, but I once found a bobolink that was pure white, barring two black streaks on his breast. It has been supposed that "freak" birds have some difficulty in procuring mates, but this white bobolink had a wife and an interesting family of young. It may have been nothing but accident, but the mated pair built their nest in a meadow where there were no other bobolinks, although the fields directly across the road were filled with their brothers and sisters. It certainly looked like bobolink ostracism due to the peculiarity of the albino's features.

It happens not infrequently that some nestling is smaller and weaker than its brothers and sisters. This is probably due to constitutional causes, for as is believed by most scientists and observers generally that the parent birds feed the little ones in rotation and show no partiality. It may be of course that through accident the more nourishing bits of food may fall repeatedly to the lot of one of the others, but which has less strength-giving qualities.

LEAVING THE NEST.

The weakling of the brood is almost always the last to leave the nest. The parents lead forth the lustier young, but do not forget the needs of the little one left behind. They divide their duty between the occupant of the nest

and its brothers and sisters, who are trying their wings for the first time. I watched the departure of five young robins from their home on the top of a porch pillar recently. Two of the young robins were much larger and apparently stronger than their nest mates. The little home was filled to overflowing, and the two sturdier birds were perching on the edge of the nest for a day before they ventured forth. Then the father robin coaxed them out. They followed him to a lawn directly across the street, and there he fed them and gave them lessons in flying.

The difference between the male and female adult robin is marked enough to make confusion of the sex in the observer's eye impossible. The father and mother robin divided their duties. Mr. Robin stayed with the two young which left the nest first, while Mrs. Robin attended to the nestlings which were a flock of its fellows. These three stayed in the nest for two days after the departure of their stronger brothers. During that time the father did not visit the nest, nor did the mother make any attempt to feed the young which were in the father's care. When the three little young finally gained strength enough to leave the home they flew to the same lawn to which the others had gone. I watched the family closely for a week, and the division of duty was maintained by the parent birds. The father fed the two lusty youngsters, while the mother looked after the three weaklings.

The father had much the easier task, but the mother made no complaint. Was there not something manlike in the way in which that male robin partitioned out the work, and something womanlike in the patient with which the female robin accepted the dictum of her lord and master.
